Event Management

ABOUT ME

Both creative and technical at heart, I pair my entrepreneurial drive with my strong interpersonal skills and pro-activeness to create and innovate exciting projects.

I love everything related to entrepreneurship and business development. This enthusiasm of mine combined with my fascination of IT systems in the emerging era of artificial intelligence is what gives me a unique edge.

I am always looking to expand my horizon and deepen my applications of AI fundamentals in order to automate business processes and scale its activities.

EDUCATION

MSc in Management, Technology & Entrepreneurship with Minor in Computer Science

Sep 2024 to Sep 2027 (expected)

EPFL (École Polytechnique Fédérale de Lausanne) · Lausanne, Switzerland

Solari Builders Program

Feb 2025 to Aug 2025

Solari Report (Catherine Austin Fitts)

Six-month programme covering ranging topics from micro & macro-economics, policy-making, financial flows, venture capital all the way to biophysics. Lectures were held online from leading figures in their respective fields, including two in person events.

BSc in Communication Systems, Computer Science

Sep 2020 to Jul 2024

EPFL (École Polytechnique Fédérale de Lausanne) · Lausanne, Switzerland

EXPERIENCE

Event Organiser

Mar 2022 to May 2025

Self-employed · Lausanne and Geneva, Switzerland

Organised 22 events, ranging from student club nights to themed concepts in unique location for broader audiences.

- Managed event concepts, marketing, promotion, social media and ticket sales.
- Coordinated staffing, equipment, lighting, sound and decoration.
- Negotiated with partners and managed event teams.

English Teacher

Sep 2024 to Jun 2025

EIA (École d'Ingénierie Appliquée) · Lausanne, Switzerland · Part-time

Taught B1–B2 English to two small classes of students aged 18–24.

- Explained language concepts through practical exercises and classroom interaction.

Intern

Jan 2020 to Jul 2020

Pepal Ltd · Mumbai, India

Supported the start-up developing : Ways ~ a Next Generation Tolling Platform that was commercially deployed at Bandra-Worli Sea Link Toll Plaza in Mumbai.

- Gained exposure to challenges faced during deployment of new technology: contract negotiations, team management, fundraising, educating ground-staff to use the system and technical troubleshooting during pilot deployments.

PROJECTS

Event Radar ~ Android App

Feb 2024 to Jun 2024

EPFL, Bachelor project · Lausanne, Switzerland

Built the MVP of a native Android app blending social networking with event discovery, in a team of seven.

- Worked in Scrum sprints with GitHub workflows: feature branches, reviews and shared task assignment.
- Learnt how the layers of a full software stack fit together.
- Delivered to tight deadlines while working in parallel without clashing.

Scala Lab ~ Compiler Feature

Feb 2022 to Jun 2022

EPFL, Bachelor project · Lausanne, Switzerland

Added a new language feature to Scala by studying and modifying its compiler.
